

Dollars for Scholars

A program of Scholarship America®

**The Cleveland Clinic
Lou Ruvo Center for Brain Health**

Dollars for Scholars, founded in 1958, provides an effective, proven way for you and your community to provide academic support and financial aid to local students. The cost of college keeps rising at a rapid pace, meaning that the very thing many have always believed holds the key to our society's future – a postsecondary education – is now beyond the financial grasp of many of those who are society's future. The Dollars for Scholars program empowers communities and groups to help themselves by helping to educate their young people. In turn, it inspires students to achieve by showing that others care about them and their futures.

There are a number of advantages to having your community's scholarships come from a Dollars for Scholars chapter. Affiliation with us means local donors have the opportunity to donate and receive a tax deduction-unlike most high schools, Dollars for Scholars chapters are 501© (3) tax-exempt organizations.

The Cleveland Clinic Lou Ruvo Center for Brain Health (CCLR) is dedicated to the conquest of Alzheimer, Huntington, Parkinson, Amyotrophic Lateral Sclerosis (ALS), and all forms of memory disorders. Ultimately, the aim is to prevent the disabling symptoms of chronic brain diseases and to prolong healthy, vital aging in people at risk for dementia or memory impairments. The Lou Ruvo Center for Brain Health is forging worldwide cooperative research networks to validate new treatments for prevention. These networks will also seek to develop new technologies for early detection and diagnosis of memory disorders in healthy asymptomatic people at risk for dementia or other neurodegenerative diseases.

The CCLR is a 501 (c)(3) organization working as the medical-scientific affiliate of Keep Memory Alive (KMA), also a Nevada-based, 501 (c)(3) organization. KMA and CCLR are devoted to the promotion of healthy vital aging for all citizens and seek to enhance the quality of life for the growing number of people with cognitive impairments or dementia.
